

The editor of Millionaire Blueprint Magazine states “... *if I ever made the decision to get involved in any network marketing company, I would join this man and his company.* The concept of *the company is unique, it is financially strong* because it is backed by Paul himself, and he has major dollars. Major national companies are lining up trying to get his company and distributors to sell their products. *His compensation plan is like no other in its generosity* and millions of dollars have been spent on the support and technology for the distributors.”

## How Do I Make Money as a Fortune Hi Tech Representative?

### Getting Paid as a Manager:      The start of your business

- Initial investment: **\$299.**
- **Step One towards earning income is getting 3 customer points.** This allows you to receive ¼% residual income on each customer point (a recurring bill) in your downline through the first 7 levels and 5% on the customer points on your 8<sup>th</sup> level.
- **3 customer Points also qualifies you to receive \$100 on anyone who you sponsor in your first level ... once they have gathered their first three customer points.**
- **The best and quickest points come from** True Essentials, Peter Lamas, Travel Web Site, Personal Web Site, Go Solo (plans starting at \$17.95 and above) Ingrid Home Security, Fortune TV, Fabs Fitness Program, and Identashield. That is because they activate very quickly, if not almost instantly, and you are qualified to begin earning money immediately. Dish TV, GE Home Security, Cellular Phone Services (family plans count as 2 points when not used for your first 3 points) and the Long Distance Services as well as the other products offered, take longer to activate and are better used for points 4 through 15 as you advance levels.
- Once you have **5 customer points**, you are paid **\$5** on each of the people sponsored by you or anyone else on **level 2 through 7 in your Manager’s Code.**
- Once you have 10 Customer Points you are paid \$10 for anyone entering your business on your 8<sup>th</sup> level in your Manager’s Code.
